What is Color Light Energy Work?

Using a "Crystal Bed" that uses Color and Light to heal restore, renew, regenerate the human body. It also refresh, inspire and stimulate the Spirit and the Soul. It is a holistic healing modality that cleans and clears the Chakra system and put the body into a natural healing state. It is believed that Color Light therapy for healing goes back over 2000 years. Our bodies respond to color because at the cellular structure there is color and light. The Egyptians had healing rooms that were based on light and color to heal the people of that time. This is nothing new but an ancient healing modalities.

What is a Crystal Bed?

A crystal bed has 7 extremely clear and highly polished Vogel cut quartz crystals suspended approximately 12 inches above the client lying on a massage table. Each of the quartz crystals has been cut to a specific frequency. Each crystal is aligned above one of the seven human energy centers or chakras. Colored lights, chosen to match the frequency of Chakra colors, radiate light and energy through the crystals to each respective Chakra, and shine on and off in certain rhythms to cleanse, balance, and align your energies. The individual receiving the session rests face up with eyes closed, bathing in the energy.

How is this a portal?

In addition to the healing power of the crystals and color therapy that the bed provides, your spirit guides and of the Casa are able to use this device as portal so that they may more easily make their presence felt to those who seek their help in healing.

How to prepare for Crystal Therapy?

You need to do nothing. However, for the best results, simply maintain an attitude of openness and receptivity. It is also helpful, but not essential, that you form a specific intention or prayer of what you want help with.

How is a session conducted?

"Color Light Crystal Healing" is safe and noninvasive. The person receiving the "Crystal Color Light Healing" simply removes their shoes, and glasses then lies fully clothed, on a massage table below the suspended crystals, so that each of the seven crystal aligns to the their corresponding Chakra. Once the person is comfortable, a white cloth is placed over their eyes, soft music is turned on, and finally the pulsating lights shining through the crystals is turned on. All the individual need to do is to relax, let go, or even fall sleep. The light, the crystals, and the healing spirit beings will do the rest.

What will I experience?

People may feel a variety of sensations during and after sessions, including pressure, weight, lightness, heaviness, hot, cold, wind, all manner of body sensations, tickling, tingling etc. The crystals can evoke feelings of peace and serenity, and typically a very deep relaxation. You may simply fall asleep and wake up feeling very refreshed and renewed. You may experience insights and release of specific personal issues and memories. You may have feelings of warmth, movement, expansion, cleansing, or a feeling of being touched. Some people feel sensations of physical healing taking place, as they feel the presence of their Guides working directly on their physical bodies. Your awareness may even extend beyond yourself to higher states of consciousness.

How does the "Color Light Crystal Therapy" produce healing?

The colored light shining through the crystals is a tool that is used to channel healing energy into the individual receiving the "Crystal Color Light Therapy." As the color is transmitted through the crystal onto the corresponding Chakra, the Chakra is cleansed, energized, and brought into balance with all of the other chakras. This allows the other aspects of our self, whether it be mental, emotional or physical to be brought into balance. For when the chakras are out of balance, all the other aspects of our selves will also be out of balance. Then as these subtle energies are brought into balance, then the bodies own natural healing mechanisms are able to function as they was designed to do. The "Color Light Crystal Therapy" cleanses balances and recharges the body's energy and creates a deep relaxation. It is also a great preventative modality.

What to expect after the session?

As with many of Subtle Energy Healing Therapies, no claims can be made that any disease states can be cured. However there are many reports of healings occurring daily throughout the world. Healing can occur on many different levels, spiritual, mental, emotional, and physical. The crystal bed also can help open the connection with the Healing Spirit Guides. Many people who have had "Color Light Crystal Healing" sessions have reported some of the following:

- An increase of definitions in the senses (taste-food, sight-colors, touch and awareness)
- Feeling more energized, clear thoughts and the ability to focus
- Feeling a deep relaxation, a connection to the earth and/or universe
- Feeling more at peace within themselves- a balance of the chakras
- Feeling less stressed and an increased sense of overall well-being-increase in health
- A deeper spiritual understanding of themselves, and their life situations
- Gaining insights into their future life path and the evolution of mother earth
- Gaining insights of the cause of disease states- looking inward into personal health

- Receiving guidance as to how to best deal with their disease or problems

Each and every person who receives a "Color Light Crystal Therapy" reports a different effect, each experience being relevant and unique to his/her own condition, needs, and level of awareness. Many people who have experienced the crystal bed also feel themselves in an altered state after a session. Many say they feel the sensation of being worked on by spirits, some float back into past lives, and some a feeling of great attunement to spirit. The experience is totally individual.

What do I do after a session?

Reverend Patty encourages individuals to rest for an hour, after a session to fully absorb the experience. She also advises to drink several glasses of water over the next several hours to help rid the body of any toxins or waste products which tend to be released through the cleansing action of the Crystal healing. It also can be helpful to write down the experiences and guidance which can occur during the healing session, to help integrate and ground the experience into your life.

Duration of sessions?

Sessions may be 20, 40, or 60 minutes. Sessions can be had every day if needed, however no more than one (1) hour of treatment is recommended in one (1) day. Initially, sessions are of 40 minutes duration for one in average health. This allows the individual to become accustomed to the effects of the Color Light Crystal Therapy. Once comfortable with the 20 or 40 minute sessions, then the sessions may be extended.

How often should Color Light Therapy be used?

The number of sessions someone has depends on the individuals' level of health, and their reason for having "Color Light Crystal Therapy" sessions. If someone is very ill, then sessions can be as many as two to three per week until their level of health increases, then reducing the frequency to weekly and then to monthly. If an individual is having Color Light Therapy sessions for a spiritual reason then one or two sessions weekly are adequate. Still others prefer to come when they feel the need, and others come once a month as preventive or to help them stay "tuned up."

More about the Crystals

The crystals for the Crystal Bed were mined in a small town called Garimbo de Ouro in Brazil where gold and precious stones, quartz crystals, and amethyst lie beneath the surface of most of that area resulting in a profound energy emanating from the land. Joao Teixeira de Faira (John of God) says that the crystals making up the bed, were "born in beds of water, deep beneath the earth." They were extracted from the earth and personally selected and guaranteed by John of God. Each of the seven crystals came from a single stone and was carefully polished to exacting standards.

Scientific Observations on Crystal Therapy

Crystals have some of the highest molecular orderliness found in nature. Light passing through the crystal will resonate with the structured patterns of the crystal. Water can take on a variety of molecular patterns. It is known that when water forms well organized and geometrically shaped molecule patterns, it has increased surface tension and bonding properties. This is the pure state of water found in healthy cell tissue, while ungeometric and disorganized water molecules are found in unhealthy cells and cancer cells. Thus, one explanation for the health giving effects of crystal therapy is that the well-organized vibration resonating from the crystals helps to organize the water in our tissues and cells. Much of our understanding of crystal therapy was developed by Marcel Vogel, who spent his lifetime investigating quartz crystals. He designed experiments demonstrating the power of crystals to affect physical processes. The experiments of Vogel and his associates proved the following:

- A precisely cut quartz crystal produces a constant vibration of the same frequency as water in its purest state.
- Moving water will pick up the vibration from the crystal through resonant interaction and this transferred charge will restructure the water.
- A cut crystal can be charged with intent to structure water. Since we are made up of 90% water this carries strong implications for how our body and health can be affected.

In addition to each Crystal Bed Healing you will receive:

A healing master assisted pre crystal bed, personal Chakra and aura clearing. Chakras and auras will be aligned, cleared and major energy blockages removed as well as aura tears repaired as the aura is fluffed. (This actually helps to accentuate the crystal bed session.) Reverend Patty Pipia is very gifted intuitive that will assist you to process the session.

Excellent for people who have experience or are experiencing the following: trauma, Autism, addiction problems, undergoing Chemo/ Radiation therapy, Immune System Challenges, depression, anxiety and so much more. Crystal Light Therapy is a great tool for someone to go into a deep meditation state or an expanded state of consciousness.

Looking for guidance and direction in life? Crystal Light Therapy can enhance your spiritual journey.
